

location.hh

```
graph TD; A[location.hh] --> B[iostream]; A --> C[string];
```

A diagram illustrating a dependency. At the top is a gray rectangular box labeled 'location.hh'. Two dark blue arrows originate from the bottom edge of this box. One arrow points diagonally down and to the left to a white rectangular box labeled 'iostream'. The other arrow points diagonally down and to the right to a white rectangular box labeled 'string'. Both 'iostream' and 'string' boxes have thin gray borders.
